Subject: Microsoft Settlement

Hello,

As I understand it, MS1 settlement offer would have them giving away hardware/software to public institutions (school etc.) Now, that's the core sector of their direct competitor (Apple). I fear the Mr. Gates business acumen sees in this an opportunity to give away 3 samples² of his products to a new generation of buyers, which would only lead into making Microsoft stronger and bigger.

Thank you for your time.

JF Leduc,
